

WHAT IS PERIODIC TABLE GAME ABOUT?

Ever wondered if there was a fun way of learning Periodic Table? Well, this is it! **Periodic Table (Game)** is an educational game, designed to teach and test the player's chemistry with Periodic Table all the way to college and beyond.

The game's primary target audience are students from college who want to brush or improve their Periodic Table knowledge, but is geared to help teach anyone who is interested in learning Periodic Table!

The game is mechanized with match two puzzles and includes three modes of difficulty to help ease the learning curve. It also includes an extensive database of all periodic table elements to help players learn any element to the highest degree!

The Game is available on both Apple and Android tablets and phones.

31 Ga Gallium 69.723	32 Ge Germanium 72.63	33 As Arsenic 74.921595	34 Se Selenium 78.971	35 Br Bromine 79.904	36 Kr Krypton 83.798
--------------------------------------	---------------------------------------	---	---------------------------------------	--------------------------------------	--------------------------------------

HOW DOES THIS GAME HELP LEARN?

The game is weaved to test the player from the basics and progressively towards advanced topics of Periodic Table. It is a test against time to match the tiles as they course through the levels of increasing difficulty to reach the highest level possible! This helps players learn their strong and weak suits which can be remedied by the Periodic Table database.

IMPROVEMENT BEYOND THE TABLE!

The game is designed for interactive learning, as a result the game also improves cognitive functions like attention, (working) memory, judgement, evaluation, reasoning and computation. In short, this GAME is built to entertain, test, teach and enhance players' cognitive skills through playing the PERIODIC TABLE GAME!

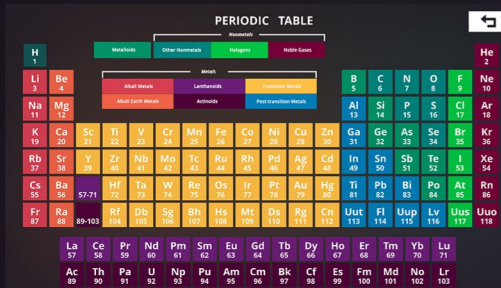

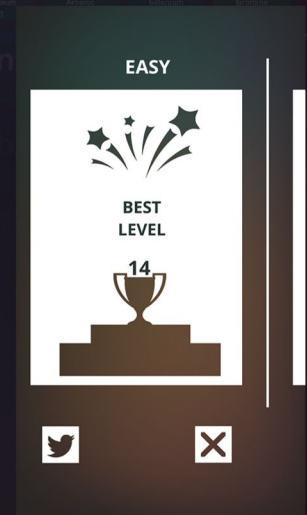

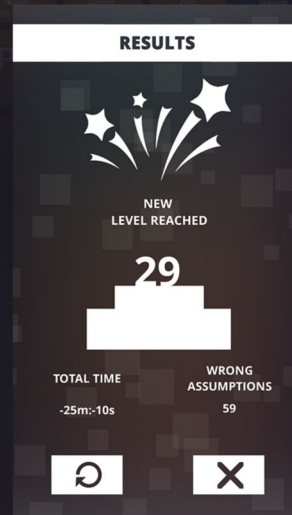

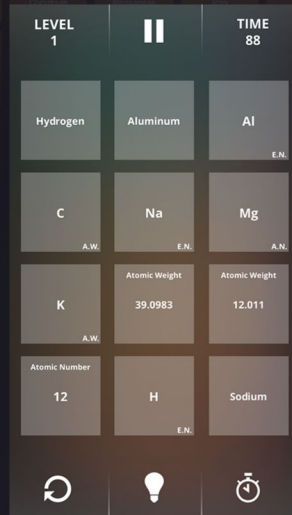

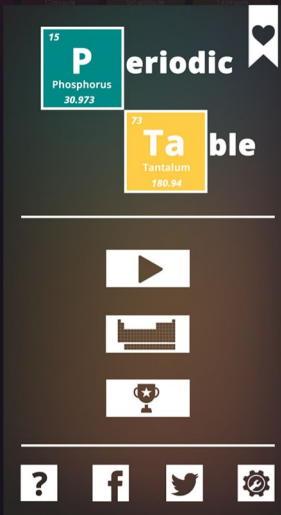

HELP US MAKE IT BETTER!

We would like to improve our game even further and appreciate any feedback or comments you may have. If you would like any additional features or functions or maybe even games covering other topics, feel free to leave a comment on app page or email us at info@cellecgames.com. We look forward to your feedbacks and suggestions to help us improve the game even further!
